

Avaya-Ready Communication Solutions from Polycom

OEM Solutions

3641 & 3645 IP Wireless Handsets

Avaya IP Wireless Phones

3641 and 3645 IP Wireless Handsets

These handsets integrate with Avaya Aura®, Avaya Communication Manager R2.2 and higher, and Avaya IP Office R4.1 and higher. The handsets utilize the Avaya Voice Priority Processor and the Open Application Interface server, and are compatible with 802.11a, b, and g networks.

6120 & 6140 WLAN Handsets

6120 WLAN Handset

Designed for premises-based mobile communication in the workplace, this intermediate-level IEEE 802.11a/b/g wireless device is optimized for use in a general office, and in financial and hospitality industries.

6140 WLAN Handset

The 6140 WLAN Handset is a professional-level IEEE 802.11a/b/g wireless device with integrated push-to-talk functionality, designed for premises-based mobile communications in the workplace. Engineered for demanding environments that require a high level of collaboration, it is small enough to be highly mobile, yet rugged enough for heavy use.

4145/4146/7444/7449 DECT Handset

Avaya DECT for Business Communications Manager

7400 Series DECT Handset

The 7400 Series DECT Handset seamlessly extends the features and applications of Business Communications Manager (BCM) to provide wireless communications. It offers cost-effective, high-quality multi-cell roaming capabilities within and around the office environment.

Avaya 1692 IP Conference Phone

IP Conference Phones

Avaya 1692 IP Conference Phone

Providing the convenience and productivity benefits of a powerful, hands-free conference phone, the 1692 IP Conference Phone delivers the full set of Avaya Aura features directly to small, medium, and large conference rooms.

Avaya 2033 IP Conference Phone

Avaya 2033 IP Conference Phone

Perfectly suited for small and medium-sized conference rooms and managerial/executive offices, the 2033 is a full-duplex, hands-free conference phone that offers 360-degree room coverage. For use with Communication Server 1000.

DevConnect Certified Solutions

Polycom SoundStation IP 5000,
6000, 7000

Polycom® SoundStation® IP Conference Phones

The Polycom SoundStation IP conference phones deliver outstanding performance and a robust feature set for Avaya Aura, Integral, IP Office and other SIP-based VoIP platforms. Ideal for executive offices, conference rooms, and board rooms, the SoundStation IP family features Polycom HD Voice™ technology, boosting productivity and reducing listener fatigue by turning ordinary conference calls into crystal-clear interactive conversations. SoundStation IP conference phones deliver high-fidelity audio, capturing both the deeper lows and higher frequencies of the human voice for conference calls that sound as natural as being there. All units ship Power over Ethernet (PoE) capable or can be supported with external power supplies. DevConnect certified for use with IP Office, Avaya Aura Session Manager, Avaya Aura SIP Enablement Services, Tenoris I5 and I55, and Communication Server 2100.

Polycom SpectraLink 6020 Wireless
Telephone and System Components

Polycom RMX 1500, 2000,
and 4000

Polycom® RMX® Solutions - Universal Video Collaboration

Polycom RMX solutions are the cornerstone of the Polycom® RealPresence™ Platform, helping you to realize the benefits of open unified communications (UC) by mixing multi-party voice, video and content collaboration sessions together. Streamlining complexity and reducing costs, RMX solutions connect UC environments and applications seamlessly and enable a reliable, high-quality user experience. DevConnect certified for use with MCS5100, Communication Server 1000 and Meridian 1 PBX.

DevConnect Certified Solutions

Polycom HDX 6000, 7000, 8000
and 9000

Polycom® RealPresence™ Room – Polycom® HDX® Series

Connect and collaborate with anyone across your organization using video as easily as making a phone call. The Polycom HDX Series connects people visually across campus or for a project team meeting across the globe. With Polycom's robust yet easy-to-use software, HDX solutions deliver advanced features and HD video, voice, and content-sharing to make visuals more lifelike and meetings more productive. DevConnect certified for use with MCS5100.

Polycom HDX 4000 and 4500

Polycom® RealPresence™ Desktop – Polycom® HDX® 4000 Series

The Polycom HDX 4000 series delivers the industry's best collaboration experience with high-definition video, audio, and content-sharing software housed in a compact stylish design. DevConnect certified for use with MCS5100.

Polycom CMA and CMA Desktop

Polycom® RealPresence™ Desktop – Polycom® CMA® Desktop

Enterprise-scale video collaboration software for the individual user. The Polycom CMA Desktop solution is all-in-one video collaboration software designed to cost-effectively improve productivity at the desktop. Achieve an immediate return on investment through a centrally delivered software video client that's easy for IT to manage and easy to use wherever you are. As part of the Polycom RealPresence Platform, the CMA administrator controls user access to corporate directories and virtual meeting rooms, and provides usage reporting. DevConnect certified for use with Avaya Aura Communication Manager.

Polycom SpectraLink
8440 and 8450

Polycom® Wi-Fi Communications – SpectraLink® 8400 Series

Polycom® SpectraLink® 8400 Wireless Telephones improve productivity and responsiveness for on-site mobile professionals across a wide range of industries, including healthcare, retail, manufacturing and hospitality. Built on open standards, the SpectraLink 8400 series transforms the delivery of mobile enterprise applications by bringing the power of thin client and browser technology to front-line professionals in an easy-to-use and easy-to-manage interface. Additionally, the SpectraLink 8400 series supports the industry's broadest range of interfaces to enterprise-grade PBX, wireless LAN, and infrastructures to deliver maximum interoperability with the lowest overall cost of ownership in the industry. DevConnect certified for use with IP Office, Avaya Aura SIP Enablement Services, Avaya Aura Session Manager and Communication Server 1000.

Standards-Interoperable Solutions

Polycom® RealPresence™ Platform

IM/PRESENCE

CALL CONTROL

WEB
CONFERENCING

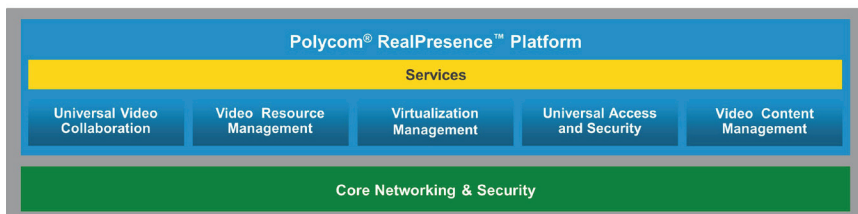

VIDEO
COLLABORATION

MOBILITY

SOCIAL

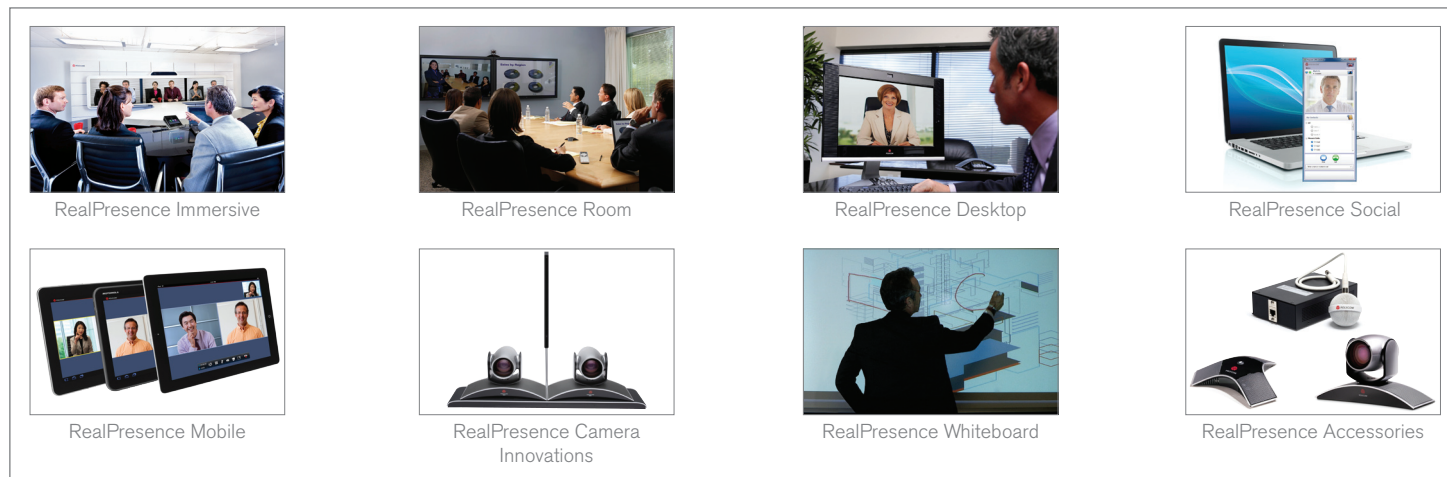

The Polycom RealPresence Platform is one of the most comprehensive software infrastructure for universal video collaboration, powering Polycom's market-leading HD telepresence and video solutions. The Polycom RealPresence Platform fits in the unified communications (UC) "stack" between the foundation layer of core network and security infrastructure and the services, applications, and device/endpoint layers above it, enabling the various software elements, which are typically from a range of different vendors, to interoperate seamlessly. The Polycom RealPresence Platform interoperates with hundreds of products and services offered by the Polycom global ecosystem of partners so that you can choose best-of-breed solutions that are right for your organization with the assurance that they will work together.

Standards-Interoperable Solutions

Polycom HD Telepresence and Video

Polycom HD Telepresence and Video solutions are easy to incorporate into your normal business workflows. The Polycom innovative software and open standards-based approach, along with the Polycom ecosystem of hundreds of partners, work together to help ensure the interoperability of multi-vendor solutions. This critical ease-of-use drives adoption by your organization, which in turn drives your return on investment.

Polycom Analog and Digital Conference Phones

Polycom conference phones are the industry standard for clear, productive conference calls, and are a fixture in meeting rooms worldwide. In a world where conference calls with partners, vendors, remote workers and global teams are on the rise, crystal-clear conversations are a requirement for productive meetings. Polycom conference phones deliver the superb voice quality, expansive microphone pickup, and advanced audio processing that makes conference calls seem as natural as being in the same room.

About Polycom

Polycom is the global leader in standards-based unified communications (UC) solutions for telepresence, video, and voice powered by the Polycom® RealPresence™ Platform. The RealPresence Platform interoperates with the broadest range of business, mobile, and social applications and devices. More than 400,000 organizations trust Polycom solutions to collaborate and meet face-to-face from any location for more productive and effective engagement with colleagues, partners, customers, and prospects. Polycom, together with its broad partner ecosystem, provides customers with the best TCO, scalability, and security—on-premises, hosted, or cloud delivered.
